## Battery powered tool for plastic strap

### TA260 - The digital professional

The new TA 260 is a innovative and revolutionary battery strapping tool, developed for 13 – 16 mm PP and PET strap.

Lightweight, well balanced, ergonomic and easy to use.

### The TA 260 can work in three different operating modes (fully automatic, semi-automatic and manual).

Developed without the standard opening lever for a more comfortable strapping operation. With the integrated Bluetooth connection you can set, check and update your tool. You can also use your mobile devices (APP available for Android and iOS). Brushless motors allow a very fast strapping operation, granting also low maintenance, and improved electronic control. Equipped with high efficiency and long life Li-Ions battery, it can reach even more than 400 cycles per charge, without any memory effect.

TA 260 can be used in any application field, from timber to logistic, from steel to brick industry and, with the new „Soft Tensioning Mode“, also corrugated and all other light applications will not be a problem anymore.

### Technical Data

Kind of drive (tensioning)	Electric
Tension force	500 – 2.500 N (adjustable)

Kind of drive (sealing)	Electric
Power supply system	Li-Ion 18 V - 5 Ah
Strap feeding speed	11 m/min.
Dimensions	325 x 135 x 135 mm (L x B x H)
Weight	4,4 kg

### **Strap/Joint**

Type of strap	Plastic strap
Strap	PP PET
Strap width	13, 16 mm
Strap thickness	0,50 - 1,05 mm
Kind of seal	Friction-weld joint
Sealing strength (depending on strap quality, strap dimensions)	Approx. 75% of the strap breaking load

### **Application**

Strapping of flat packages (e.g. palletized goods) for mobile use.
